SUBJECT: IT INTERN - JERIEL SANAO

Dear InfoSoft Team,

I am Jeriel Lian D. Sanao, a 2nd-year BS in Information Technology student at the University of Mindanao, and I am writing to express my strong interest in the IT Internship opportunity at InfoSoft.

With a solid foundation in HTML, CSS, JavaScript, PHP (Laravel), and MySQL, and current efforts to expand my skills in React, I am passionate about building user-centered and functional web applications. I am particularly excited by the opportunity to gain hands-on experience in areas such as Frontend Development, Backend Development, and UI/UX Design — all of which align with the competencies I aim to master.

Through my academic project, the ByteVault Inventory System, I've gained real experience developing a role-based inventory management system using Laravel and MySQL. I'm eager to bring that same dedication and curiosity into a professional setting, where I can learn from seasoned developers and contribute meaningfully to team projects.

InfoSoft's commitment to nurturing talent and providing a diverse learning environment strongly resonates with me. I look forward to the opportunity to grow, collaborate, and deepen my understanding of real-world IT practices under your mentorship.

Attached is my resume for your review. I would be grateful for the chance to discuss how I can contribute to your team and make the most of this internship experience.

Thank you for your time and consideration.

Sincerely,

Jeriel Lian Sanao
